

Course Details

Oracle Life Sciences Data Hub (LSH) Admin Training

About this course

The objective of this 1-day course is to learn the administrative functionality of LSH through workshops led by the instructor and hands-on exercises. The course will start with an overview of the overall LSH Architecture, provide an insight to the administrative options provided by the eBusiness Suite and take you through starting and stopping the various LSH services. Finally there will be a review of LSH security including creating new users and setting up a security system.

Who is it for?

This course is for administrators and DBAs who have the responsibility for maintaining an LSH implementation. A background in basic IT administration is assumed.

What is covered?

- LSH Architecture
- Introduction to eBusiness Suite
- DP Server configuration
- Starting and stopping LSH
- Creating users
- LSH Security
- Common Issues and troubleshooting
