

## Course Details

### Oracle AERS™ 4.6.x Administrator Training

#### About this course

The objective of this 2 day course is to learn about the major application administrator features and functions of Oracle AERS™ through workshops led by the instructor and hands-on exercises. The course will start with an overview of the administration subsystems in Oracle AERS™ and will then lead on to a more detailed look at each of the subsystems which will allow the student to learn how to perform system administration and company specific global maintenance.

#### Who is it for?

This course is aimed at people who have no prior experience of Oracle AERS™ however prior experience of administering Oracle applications and/or drug safety / pharmacovigilance is recommended.

#### Recommended other courses

Oracle AERS™ 4.6.x End User Training
